

## School District of Neillsville

### Animals in Schools: Staff Verification for Animal in the Classroom Form

The health, safety, and welfare of each staff member is important to the district. Accordingly, this form must be completed and on file for each applicable staff member before an animal may be brought into a classroom or area used by the staff member. If the health status of the staff member changes during the year, the staff member should notify the principal. Staff should also report any known allergies/asthma to the school nurse. Staff cooperation is appreciated.
